

Vice President

Diego Andreis was born in Milan on 29th January 1976. After the degree in Engineering at Politecnico of Milan, he has studied at SDA Bocconi, Harvard Business School and London Business School feeding his passion about innovation in the field of management and technology.

Diego Andreis is the managing director of Fluid-o-Tech, a family business with 70 years of experience in the engineering and manufacturing of positive displacement pumps and fluidics systems for the automotive, medical, foodservice

and industrial field. The company has a direct presence in Italy, UK, USA, China, Japan. Its factory is considered a model example for the Industry 4.0. Quality and Innovation are the company strategic pillars, 6% of revenue are invested in R&D involving 18% of its staff.

For three times Fluid-o-Tech has been awarded with the National Prize for Innovation by the President of the Italian Republic (2014, 2016 & 2017).

A passionate experimenter of innovation models, in 2013 he founded F-Lab an innovation centre that leverage open innovation dynamics to accelerate the innovation process where highly qualified engineers and designers work together with universities, companies and experts on new technologies and new materials.

In 2014 Diego founded Dolphin Fluidics, which designs advanced fluidic systems based on the integration of non-conventional technologies.

In 2015 Diego Andreis became President of the Mechatronics Group Assolombarda, the country's largest territorial association within the entrepreneurial system (re-elected for the 2016-2020 term), and member of the General Council of Assolombarda.

In December 2015, he became Vice President of Federmeccanica (Federation of Metalworking Industries), in charge of relations with multinationals and large enterprises in Europe.

In September 2016 Diego Andreis has been elected President of the European tech & industry employers' organization Ceemet for 2016-2018, and re-elected until end 2020. After the end of his mandate as President he was elected as Vice President. The association of European companies active in the mechanics, engineering and technology sectors, represents over 200,000 companies.

Diego Andreis is a YPO member since 2012, Chapter Chair of the Italian Chapter 2015-16 and member of the regional Board since 2016.

In 2016 he became a member of the Aspen Institute Italia, in his capacity as a Friend of Aspen.

The experienced TEDx speaker is since June 2018 President of AFIL (Smart Factory Regional Cluster in Lombardy) and board member since 2016.

ABOUT Ceemet

Ceemet represents the metal, engineering and technology-based industry employers in Europe, covering sectors such as metal goods, mechanical engineering, electronics, ICT, vehicle and transport manufacturing.

Member organisations represent 200,000 companies in Europe, providing over 17 million direct and 35 million indirect jobs.

Ceemet is a recognised European social partner at the industrial sector level, promoting global competitiveness for European industry through consultation and social dialogue.
