ACTING HEAD OF UNIT ALEXANDER RIEDL

The acting Head of the “Digital Economy and Skills” unit in the European Commission’s DG CONNECT contributes to the implementation of the Digital Single Market Strategy and is monitoring progress in Member States through Europe’s Digital Progress Report. Mr. Riedl’s team also analyses the impact of digitisation on work and labour market, and develops concrete actions to tackle the digital skills challenge.

A trained economist, Alexander Riedl worked in the media and telecommunications sectors before joining the European Commission in 2004. Prior to his current job in the Commission, he worked in competition enforcement and scientific advice to policy making.

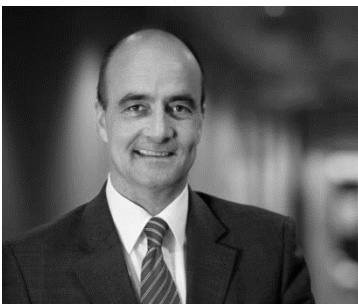

CEO ROBBIN MENNINGS, MSC

The founder & CEO of WiredWorkers and Director & mechatronics engineer at Menntronics is a cobot specialist.

As CEO of WiredWorkers he leads the research and development of the platform in order to use collaborative robots as interim workforce support. At Menntronics Mr. Mennings can rely comfortably on his engineering skills as he develops concepts for mechatronic products and product automatization.

CEEMET DIRECTOR GENERAL UWE COMBÜCHEN

Is since 1997 Director General of the association that represents over 200,000 manufacturing companies across Europe, providing 35 million direct and indirect jobs. As recognised social partner Ceemet has expertise in various fields of EU social policy i.a. education and training.

In 2016 Ceemet launched as first sector organisation a report on ‘*Digitalisation and the World of Work*’ looking at work organisation. In 2018 the follow up report ‘*Digitalisation and the World of Skills & Education*’ is looking more closely at the link and impact of skills and industry.
